

PILOT GUIDE SHOE LRL

Slick Body Guide Shoe with self-aligning lockable nose

Product

The Pilot Guide Shoe is a slick body eccentric nosed guide shoe to aid with the running of any casing, liner and screen applications. Run in conjunction with EZI-Drill® Lock-Rotate-Lock (LRL), a self-aligning eccentric lockable guide nose, engineered to freely orientate passed wellbore obstructions without mechanical intervention. When in its 'locked' position, the nose cannot spin and allows for efficient trouble-free drill out.

Features

- Lock-Rotate-Lock (LRL) self-aligning nose
- Wellbore seeking eccentric guide nose negotiates troublesome formations.
- EZI-Drill® nose design to aid drill-out without compromising nose strength.
- Fully locked during drill out.
- Flow ports offering 360° flow area.
- Slick body design helps reduce ECD.

Options

- Single & double valve options.
- Aluminum or composite nose options.
- All API and premium connections available.
- All material casing grades available.
